Family First Act (updates)

The Family First Act presents an unprecedented opportunity to give child welfare systems the tools they need to make transformative changes that strengthen families so more children can remain safely with their parents and kinship caregivers.

As Ohio moves closer to implementing the Family First Act, we will catch everyone up-to-date with what we each have learned since the last CAN meeting.

2019 Children Services Data

Annual statistics collected so far plus a discussion as to what data sets would be most helpful to you. Introduction to ODJFS data dashboard.
