

# 2020 HOLIDAY GIVING OPPORTUNITIES

WITH

## LORAIN COUNTY CHILDREN SERVICES

Thank you for your interest in helping at-risk children have a merry and bright Christmas. Through the generosity of individuals and organizations, the approximately 600 children on our caseloads always have gifts under the tree. As a public agency, gifts are one of the things we can't use taxpayer dollars for, so your generosity is appreciated not just by the child, but by LCCS staff as well. For most children on our caseloads, gifts provided by the community are the only gifts they get.

### How will this happen during a global health crisis?

Because of Work from Home, both our staff and yours, it was much more practical this year for us to create an on-line gift registry for the children we serve. [Check out the LCCS Kids Holiday Gift Registry!](#)

LCCS Holiday Committee divided the children into ages/gender groups and curated a selection of popular and affordable gifts for each group giving you as many choices as possible.

When you purchase a gift from the list, it will be delivered to LCCS, and the caseworker with that child on her/his caseload will deliver the gift to the family. We will either wrap or provide wrapping paper to the parent/caregiver if preferred.

### How many kids can I help?

You can help as many children as you or your company wishes to. The registry will close when all the children have gifts heading their way.

### Are traditional giving options still available?

If you wanted to do a Board Game Collection or Slippers and Shoes collection, we would be thrilled to partner with you and make sure your organizations gifts were distributed to children in need.

### Where is the registry again?

We used MyRegistry because it provided options to shop from multiple stores instead of only using a single source for gifts. Find the LCCS Registry [HERE](#)
